COMPANY INTRODUCTION

We are pleased to have been given this opportunity to introduce **ROYAL FORGE & FITTINGS**. To your esteemed organization.

We at **ROYAL FORGE & FITTINGS** have established ourselves in the market to be leaders throughout the Indian and overseas market by providing total Industrial supply chain solutions for all our clients' needs. We believe that not only do we have the experience and expertise to work with organizations such as yours but also the financial capacity to deliver goods and services related to the corporate environment to enhance efficiency, cost-effectiveness, and quality for complete customer satisfaction.

Our experience comes from closely working with a wide range of organizations in the Indian Region in terms of size and newly developed Export markets in Africa, Middle East. Our expertise comes from employing industry experts in each and every department in all areas.

Our alliance with our supplier base assures us a pivotal role at the cutting edge of our core business with the potential in generating new innovations in working with our customers to reshape their procuring procedures.

This has enabled us to be an integral part of our clients' development and progress. **We have, as result, established a relationship whereby if our client grows, we grow and our clients benefit from our growth.**

With this realization, ROYAL FORGE & FITTINGS are committed to being the single vendor that provides a single platform offering a total solution to cater for all our clients' needs in Industrial requirements.

Our Philosophy is one of service, quality and the acquisition of the genuine understanding of the needs of our customers.

With our perfect technical knowledge, we guarantee durability as well as accurate specifications with Test Certificates and Third party Inspections.

Please find attached detailed profiles of all our product lines for your easy reference.

ROYAL FORGE & FITTINGS is a provider of INDUSTRIAL SUPPLIES with professional approach, to offer solutions for the PROJECT & MAINTANENCE requirements.

Socket weld Fittings (Elbow, Tee, Coupling, Union, Weldolet, Sockolet, Nippolet)
